DETAILED ACTION

Allowable Subject Matter

1. Claims 1-74 are allowed.
2. The following is an examiner's statement of reasons for allowance: The limitation of "logically dividing one or more networks with said first autonomous system into groups comprising one or more blocks of network layer protocol addresses" which generally appears in each of the independent claims 1, 23, 26 and 55, in combination with the remaining limitations of each of these claims is not taught or made obvious by the prior art. The prior art generally teaches the use of an autonomous system as a shortcut for grouping networks together and does not generally teach splitting the autonomous system back into smaller entities for the use of traffic distribution. Therefore independent claims 1, 23, 26 and 55 and the claims dependent from them are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
